DETAILED ACTION

REASONS FOR ALLOWANCE

1. Claims 9-12 are found to be allowable.
2. The following is an examiner's statement of reasons for allowance:
3. The applicant's specific method of cleaning solder flux using, in particular, the high content of benzyl alcohol was not found in the prior art of record. This in combination with the requirement for the amino alcohol and the glycol compound was not found in the prior art of record. Nor would it have been obvious to modify the prior art to achieve this specific combination of ingredients specifically for removing solder flux.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory E. Webb whose telephone number is 571-272-1325. The examiner can normally be reached on 9:00-17:30 (m-f).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
